Art Unit: 2825

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-7 are allowed because the prior art does not teach or suggest a logic simulation apparatus having a combination of all elements and functions as in the manner as recited in the claims including, among other things, defining means for selecting and defining, as target portions be speeded up, logic cones each of which carries out a logic operation in synchronization with one clock domain from the logic cones extracted by the extracting means, and for defining logic cones each of which carries out a logic operation based on a plurality of clock domains as nontarget portions not to be speeded up; and verification means for performing a logic simulation on each of the target portions whose logic is compressed by the logic compressing means, and for performing a logic simulation on each of the nontarget portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
